Public Comment

There was one public commenter, Lance Foss.

MR. FOSS: Lance Foss, 1409 O'Day Road, Pearland, TX. What I'm seeking by coming to speak over a period of weeks already and I suppose may in (inaudible). I seek necessary changes in human resources recruiting management facilitated by the Texas Workforce Commission and with me develop a new model which work for Texas and the USA publicly and by working extension privately. Social working economic conditions many generations long and the incredible inertia of USA human socially alienating policies will take time to change. Small changes can happen in an instant. Like everybody else I should be and need to be paid. What I've done is I've created some fictional characters, which I'll kind of explain in a bit. I put this in video format and I'll pass that link along, but I'll introduce you to some of the characters if I may, with the time I have remaining.

Meet Ann, she like traveling but she is unhappy. She wants to travel but is having trouble traveling. Unfortunately her job history is all local. Job objectives are so 1980's, and she doesn't sound global. But she discovered this process we're working on. So with this process, USA education indicates qualification, job history shows week to week success. Job objectives, employee's job objectives, job seeker's objectives and initiative matter. Living and life circumstances is reality. So, now Ann can be happy. She is lives out of a suitcase. Location and life stage are respected and USA business does business.

Believe it or not, three minutes goes so fast. I have six or seven characters developed, but I'll introduce you to my last one. This is fictional but I think (inaudible) instructional or what have you. Anyway, this is pretending. Hi, this is Lisa, she's a Texas state senator, a problem. Citizens are not reliably employeed. One day she found a solution. The Texas, USA centric plan and a sense of urgency which will do these kind of things; nurture, develop adults in the society; train USA business; patriotism; USA food, energy and job security; USA sovereignty; USA citizenship; and USA societal inclusion. Now that Lisa has the problem for USA employment, lets say solved or making progress. The state of Texas is honestly good. Lisa now has a lot of participation and she has improved job security. Looking at this thing it may be under an umbrella, I suppose. Location centric and employee needs based human resources recruiting and management. Thank you Chairman and Commissioners.

AGENDA ITEM NO. 7
